1. The first of these is the  
fact that the system of  
the world is not a simple  
one, but a complex one.  
It is a system of many  
parts, each of which is  
interconnected with the  
others, and each of which  
has its own life and  
growth.

The second of these is the  
fact that the system of  
the world is not a static  
one, but a dynamic one.  
It is a system of many  
parts, each of which is  
interconnected with the  
others, and each of which  
has its own life and  
growth.

Whipple, Wayne, 1856-

Who is responsible for the war? . . .

\*\*H.90a.369

*Broadside.* [New York? 1864.] Size,  $11\frac{7}{8} \times 9\frac{1}{8}$  inches.

A presidential campaign broadside, giving extracts from A. H. Stephens's speech of January, 1861, against the secession of Georgia, and exonerating Lincoln from the charge of having caused the war, by a recital of events during Buchanan's administration.

Stephens's work is catalogued separately.

*This card was printed at the Boston*

*Public Library, June 4, 1935.*

D7766 — Broadside. — Presidential  ns, 1864. — Lincoln, Abraham. Political life and statesmanship.

Page No. 100

The first part of the paper is devoted to a discussion of the general principles of the theory of the structure of the atom. It is shown that the structure of the atom is determined by the laws of quantum mechanics, and that the laws of quantum mechanics are based on the principle of the conservation of energy.

The second part of the paper is devoted to a discussion of the experimental results of the study of the structure of the atom. It is shown that the experimental results are in good agreement with the theoretical predictions of the theory of the structure of the atom.

The third part of the paper is devoted to a discussion of the applications of the theory of the structure of the atom. It is shown that the theory of the structure of the atom has many important applications in the field of physics and chemistry.

The fourth part of the paper is devoted to a discussion of the conclusions of the study. It is shown that the study has led to a better understanding of the structure of the atom and to the development of new theories of the structure of the atom.

The fifth part of the paper is devoted to a discussion of the references. It is shown that the study is based on the work of many other scientists in the field of the structure of the atom.

The sixth part of the paper is devoted to a discussion of the acknowledgments. It is shown that the study was supported by the National Science Foundation.

The seventh part of the paper is devoted to a discussion of the index. It is shown that the index is a list of the names of the scientists who have contributed to the study of the structure of the atom.

— Fleet, Thomas, printer, 1685-1758.

1900

1. The first part of the paper is devoted to a general discussion of the problem of the existence of solutions of the system of equations (1) and (2) under the conditions (3) and (4). It is shown that the existence of solutions is guaranteed if the functions  $f_i(x)$  and  $g_j(y)$  satisfy certain conditions. The second part of the paper is devoted to the construction of the solutions of the system of equations (1) and (2) under the conditions (3) and (4). It is shown that the solutions of the system of equations (1) and (2) under the conditions (3) and (4) can be constructed by the method of successive approximations. The third part of the paper is devoted to the study of the properties of the solutions of the system of equations (1) and (2) under the conditions (3) and (4). It is shown that the solutions of the system of equations (1) and (2) under the conditions (3) and (4) are unique and stable.

2. The second part of the paper is devoted to the study of the properties of the solutions of the system of equations (1) and (2) under the conditions (3) and (4). It is shown that the solutions of the system of equations (1) and (2) under the conditions (3) and (4) are unique and stable. The third part of the paper is devoted to the study of the properties of the solutions of the system of equations (1) and (2) under the conditions (3) and (4). It is shown that the solutions of the system of equations (1) and (2) under the conditions (3) and (4) are unique and stable.
